## **ROADMAP FOR ESTABLISHMENT OF POSTGRADUATE EDUCATION IN ARMENIA BASED ON Salzburg Principles**

**Specialization: Accounting and  
Finance**

# PURPOSE OF ROADMAP

- Roadmap is a strategic management tool, which is applied in the process of realization of vision and mission.
- road map relating both to business or educational sphere, shows a possible way which should successfully lead to intended results

# Roadmap in the sphere of postgraduate education establishment can mobilize

- chain formation of existing resources,
- effective educational process tools,
- intended outcomes,
- risk factors, which are ultimately targeted to have a PhD education in accordance with Salzburg principles.

It is possible to represent roadmap both as a composition of frequency of actions and as a graphic. In both cases it should be clearly seen:

- what route we have chosen,
- what trajectory we leave in each segment of the selected route,
- what specific results are formed on the selected route,
- what specific outcomes we get in the end of the chosen route which are in concord with Salzburg principles.
